RE: Pet Express Concierge

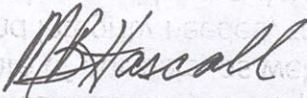

In 2004 we received an advertisement for a new company called Pet Express Concierge, explaining their pet services. Soon after, we needed to go out of town on a trip and called Brian Claybaugh for a quote on taking care of our animals while we were gone.

Brian came to see us, took the time to get to know us and our pets, and explained his services in detail. We immediately felt comfortable with Brian and scheduled him to take care of our animals during our absence. This was one of the best decisions we ever made.

Since that time, Pet Express Concierge is the only company that we will have take care of our pets, as well as our home. Brian and his company have the reliability and integrity needed, to make his clients feel totally secure. When we are gone, we know without a doubt that Brian will come to our home, take care of our animals, check for the security of the house, and do little special things like bring in the mail and newspaper. All of these things make this service invaluable.

We also utilize Pet Express for our dog's mobile grooming needs. Our dog Cody, absolutely loves going with Brian for his grooming sessions. That tells me that he is in excellent hands! It's wonderful knowing that anytime I'm unable to get home on time, I can call Pet Express and know that they will go to my home and take care of my animal's needs. There are very few companies that we would give our house key - however Brian Claybaugh and Pet Express make us feel totally secure, even when we are far from home! This is a great company, with a great service to our community and county.

Sincerely,

Mr. & Mrs. Michael Hascall
